and one mile and a half from Stephenson's depot, on the Winchester and Potomae railroad—are now open for the reception of company.

This water is inferior to none in the State, as it holds in solution sulphureted hydrogen, iodine, and magnesia, imparting tone to the system, and acting as a powerful alterative, as numerous visiters can teatify, having been visited for the last fifty years, and, had it not been for its contracted accommodations, must have been among the first watering places in the Union. For the last five years, the improvements have been increased so as to accommodate between two and three hundred visiters.

The proprietor has endeavored to put this watering place on a footing with the most fashionable and comfortable places of the sort, in a plain style, and will use every exertion in his power to make his visiters comfortable.

It is easy of access for all the Atlantic cities. Persons leaving Baltimore in the morning cars will arrive at the depot at 3 o'clock the same day, where a coach will be in readiness to take them immediately to the springs.

Soach will be in reaching to the springs.

The proprietor feels thankful for the encouragement he has received from the public, and will use every exertion to merit a continuance of it, by making those comfortable who may give him a call.

PROSPECTUS OF THE NEW LIBRARY
OF LAW AND EQUITY, under the direction of Francis J. Troubat, esq., of Philadelphis,
Hon. Ellis Lewis, of Lancaster; and Wilson McCandless, eng., of Pittsburgh.
This work contains the best productions of English law authors, without regard to priority of claim on the part of any American publisher. Such books are now notoriously too dear. The reason is, that as fast as they appear, they become monopolies in the hands of booksellers in the Atlantic cities. Underted the plea of right, acquired by the addition of notes of American decisions, the latter claim an undivided tille to those works, and set a burdensome price on them. The publishers of the work now offered to the profession throughout the Union, will not respect such titles, but will reprint the standard British law books as fast as they emanate from the London market. Should new editions of the works of such writers as Starke, the Chittys, Stephen, and Archbold, appear, they shall also be included; which have been studiously kept out of the Law Library published at Philadelphis—shall have a place in the proposed mew one, together with every new valuable English scatises on chancery or common law.

GREAT ENGLISH REMEDY

For Coughs, Celds, Asthma, and Consumption!

THE great and only remedy for Colds, Coughs,
Asthma, and Consumption, is the Hungarian
Balsam of Life, discovered by the celebrated Dr.
Buchan of London, England, and introduced into
the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine in the
curse of pulmonary diseases, warrants the American
agent in soliciting for treatment the WORST POSSIBLE CASES that can be found in the community; cases that seek relief in vain from any of the
common remedies of the day, and have been given
up by the most distinguished physicians as confirmed and incurable. The Hungarian Balsam has
cured, and will cure, the most desperate of cases.
It is no quack nostrum, but a standard English
medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not
only to counteract the consumptive tendencies of
the climate, but to be used as a preventive medicine
in all cases of Colds, Coughs, Spitting of Blood,
Pain in the Side and Chest, Irritation and Soreness
of the Lungs, Bronchitis, Difficulty of Breathing,
Hectic Fever, Night Sweats, Emaciation and General Debility, Asthma, Influenza, Hooping-Cough,
and Croup.

In Sold in large bottles at §1 per bottle, with full
directions for the restoration of health.

Pamphlets, containing a mass of English and
American certificates, and other evidence, showing
the unequalled merits of this great English remedy,
may be obtained of the agents gratuiously.
